WINDOWS VIRTUAL DESKTOP: EMPOWER YOUR EMPLOYEES TO WORK REMOTELY, SECURELY.

'FACILITATING THE NEW NORMAL'

As we all experience a shift from a predominantly physical working environment to remote working, it is vital to ensure that our employees maintain productivity and the sense of being part of a team with access to the tools, resources and expertise they need, wherever they may be.

Facilitating remote working poses a new challenge for many organisations. With dispersed workers, shared documents, and employees accessing data from different networks, it is essential that sensitive company data remains protected.
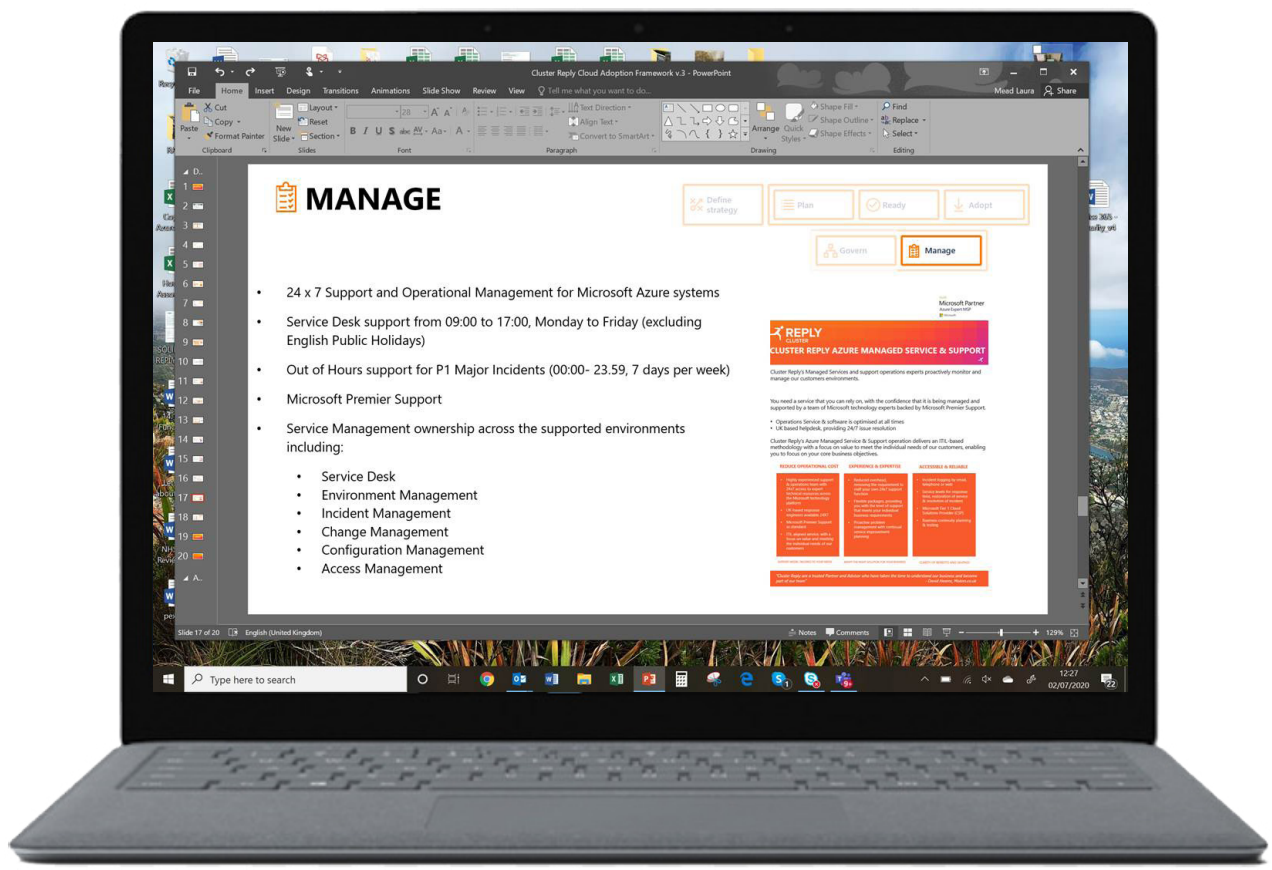

DO YOU HAVE THE TOOLS TO MEET THIS CHALLENGE?

"Cluster Reply recognises that technology plays a significant part in supporting organisations, today and in the long term to enable remote working.

Our Windows Virtual Desktop Workshop will help you to assess the most critical steps for enabling remote working, and how you can rapidly deploy key scenarios. We'll evaluate your options and leave you with a concrete deployment plan."

ENABLE YOUR TEAM TO WORK FROM ANYWHERE WITH A REMOTE WORKING WORKSHOP
